WORK EXPERIENCE

COMBO Coach— Bridges to Adelphi, Adelphi University, Garden City, NY

Jan 26, 2026 - May 2026

- Coached Bridges students weekly on syllabi, assignments, problem-solving, and schedules to build executive functioning.

Teaching Assistant (C/C++)— Adelphi University (Prof. Alireza Ebrahimi), Garden City, NY

Aug 2024 – May 2025

- Assisted professor with lecture support; graded assignments and drafted quizzes and question papers.

Web Developer— Impeto Technologies, Ahmedabad, Gujarat

January 2023 – March 2024

- Shipped responsive, SEO-ready pages and updates using HTML/CSS/JS & Bootstrap; mobile-first and accessibility (a11y) best practices.
- Improved technical hygiene: clean URLs, meta/OG tags, basic analytics, and performance wins (minification, image compression, caching/CDN).
- Partnered with stakeholders to scope requirements, iterate quickly, and deploy with minimal downtime.
- Developed reusable Bootstrap components and modular CSS/JS to speed up page assembly and keep styles consistent.

PROJECT WORK

Peerly - Anonymous Student Peer Support iOS Application (SwiftUI, Firebase, Agora, ReplayKit)

- Built an iOS-only anonymous student community app with Firebase Auth/Firestore, real-time feed, posts, likes, comments, reporting, admin moderation, and safety-center workflows.
- Implemented DM request/accept flows, anonymous handles, voice calling/voice rooms with Agora, and screen-sharing support through ReplayKit Broadcast Extension.

Comparative Literature Review of Biometric Recognition Systems - Research Paper (Apr 2026)

- Reviewed ten biometric areas: face, fingerprint, iris, speaker verification, DNA, gait, palmprint, ear, finger vein, and keystroke dynamics.
- Compared methods, datasets, evaluation protocols, robustness limits, privacy/fairness risks, and real-world deployment tradeoffs across peer-reviewed work.

Secure File Transfer System (Python, Sockets, Tkinter, AES/Fernet)

- Encrypted uploads/downloads with AES/Fernet, SHA-256 authentication, JSON credential storage, multi-threaded server support, and GUI progress tracking.
- Designed key generation, encrypt/decrypt workflow, integrity checks, and a Tkinter interface for non-technical users.

Gold/Silver/Diamond Price Calculator + PDF Billing (Python, ReportLab)

- Built a configurable pricing engine for rates, taxes, and fees, then autogenerated clean PDF invoices using reusable ReportLab templates.

Additional Projects: Smart Budget Planner (Python/Tkinter/Matplotlib), Car Rental System (PHP/MySQL), Real-Time Chat (Python/Flask/WebSocket), Truckive live truck tracking prototype, ANA email assistant on Raspberry Pi.
